

Survey Report

Organization Name - company

Heading	Details
Topic	Your details
Question	Your name
Answer	laskjfd
Topic	Your details
Question	Your Role
Answer	lkjds
Topic	Your details
Question	Your Email ID
Answer	lj
Topic	Your details
Question	Your Phone Number
Answer	lkj
Topic	Customer DetailsPOC - Customer Point of Contact
Question	Organization Name
Answer	company
Topic	Customer DetailsPOC - Customer Point of Contact
Question	POC Name
Answer	lkj
Topic	Customer DetailsPOC - Customer Point of Contact

Question	POC Email ID
Answer	k
Topic	Customer DetailsPOC - Customer Point of Contact
Question	POC Phone Number
Answer	k
Topic	Customer DetailsPOC - Customer Point of Contact
Question	Site name for which design needs to be generated
Answer	k
Topic	Number of sites and growth Based on the below categorization on endpoints, please enter the number of sites you have currently in your organization's network and the number you foresee in the next 5 years.Please note
Category	Current network
Question	Small (<2.5K)
Answer	5
Topic	Number of sites and growth Based on the below categorization on endpoints, please enter the number of sites you have currently in your organization's network and the number you foresee in the next 5 years.Please note
Category	Current network
Question	Medium (2.5K-25K)
Answer	5
Topic	Number of sites and growth Based on the below categorization on endpoints, please enter the number of sites you have currently in your organization's network and the number you foresee in the next 5 years.Please note
Category	Current network
Question	Large (25K-100K)
Answer	5

Topic	Number of sites and growth Based on the below categorization on endpoints, please enter the number of sites you have currently in your organization's network and the number you foresee in the next 5 years.Please note
Category	Current network
Question	Enterprise (>100K)
Answer	5
Topic	Number of sites and growth Based on the below categorization on endpoints, please enter the number of sites you have currently in your organization's network and the number you foresee in the next 5 years.Please note
Category	Foresee in 5 years
Question	Small (<2.5K)
Answer	5
Topic	Number of sites and growth Based on the below categorization on endpoints, please enter the number of sites you have currently in your organization's network and the number you foresee in the next 5 years.Please note
Category	Foresee in 5 years
Question	Medium (2.5K-25K)
Answer	5
Topic	Number of sites and growth Based on the below categorization on endpoints, please enter the number of sites you have currently in your organization's network and the number you foresee in the next 5 years.Please note
Category	Foresee in 5 years
Question	Large (25K-100K)
Answer	5
Topic	Number of sites and growth Based on the below categorization on endpoints, please enter the number of sites you have currently in your organization's network and the number you foresee in the next 5 years.Please note
Category	Foresee in 5 years
Question	Enterprise (>100K)
Answer	5

Topic	Count of Network Ports and Devices Please provide the exact count of
Question	Number of non-IT networks (e.g. IoT, HVAC, Camera)
Answer	76
Topic	Count of Network Ports and Devices Please provide the exact count of
Question	Average number of access ports for each of the non-IT networks
Answer	7
Topic	Count of Network Ports and Devices Please provide the exact count of
Question	Number of network switches
Answer	7
Topic	Count of Network Ports and Devices Please provide the exact count of
Question	Number of Network Access Points
Answer	7
Topic	Count of Network Ports and Devices Please provide the exact count of
Question	Number of IT access ports
Answer	7
Question	Please specify the name of the management system that is present
Answer	ITSM
Topic	Count of Endpoints Please specify the exact count of
Question	Number of wired endpoints
Answer	7
Topic	Count of Endpoints Please specify the exact count of
Question	Number of wireless endpoints

Answer	9
Topic	Count of Endpoints Please specify the exact count of
Question	Number of wired guests endpoints
Answer	9
Topic	Count of Endpoints Please specify the exact count of
Question	Number of wireless guest endpoints
Answer	9
Topic	Count of Endpoints Please specify the exact count of
Question	Number of endpoints connected to IP Phones
Answer	9
Topic	Count of Endpoints Please specify the exact count of
Question	Number of endpoints connected to industrial grade switches (in high temp/altitudes)
Answer	9
Topic	Count of Endpoints Please specify the exact count of
Question	Number of endpoints connected to fanless/UPOE switches
Answer	9
Topic	Count of Endpoints Please specify the exact count of
Question	Number of endpoints in IP pools inside the fabri
Answer	9
Topic	Count of Endpoints Please specify the exact count of
Question	Number of endpoints in IP pools outside the fabric
Answer	9

Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Place in separate Subnet
Question	IP Phones
Answer	Yes
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Place in separate Subnet
Question	Cameras
Answer	Yes
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Place in separate Subnet
Question	IoT Devices
Answer	Yes
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Place in separate Subnet
Question	Employee Laptops
Answer	Yes
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Place in separate Subnet
Question	Employee BYODs
Answer	Yes
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to

Category	Place in separate Subnet
Question	Guest laptops/BYODs
Answer	Yes
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Restrict communication and monitor with Firewall
Question	IP Phones
Answer	Yes
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Restrict communication and monitor with Firewall
Question	Cameras
Answer	Yes
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Restrict communication and monitor with Firewall
Question	IoT Devices
Answer	Yes
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Restrict communication and monitor with Firewall
Question	Employee Laptops
Answer	Yes
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Restrict communication and monitor with Firewall
Question	Employee BYODs

Answer	Yes
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Restrict communication and monitor with Firewall
Question	Guest laptops/BYODs
Answer	Yes
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Share IP subnet outside fabric
Question	IP Phones
Answer	No
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Share IP subnet outside fabric
Question	Cameras
Answer	No
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Share IP subnet outside fabric
Question	IoT Devices
Answer	No
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Share IP subnet outside fabric
Question	Employee Laptops
Answer	No

Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Share IP subnet outside fabric
Question	Employee BYODs
Answer	No
Topic	Endpoint IP Definitions For the different endpoint groups below, please if there is a need to
Category	Share IP subnet outside fabric
Question	Guest laptops/BYODs
Answer	No
Topic	Endpoint Network Traffic For employee laptop endpoint group below, please define if there is a need to
Category	Send or receives multicast traffic
Question	Employee Laptops
Answer	Yes
Topic	Endpoint Network Traffic For employee laptop endpoint group below, please define if there is a need to
Category	Multicast rx/tx outside fabric
Question	Employee Laptops
Answer	Yes
Topic	Endpoint Network Traffic For employee laptop endpoint group below, please define if there is a need to
Category	Has Broadcast
Question	Employee Laptops
Answer	Yes
Topic	Endpoint requirements For the different endpoint groups below, please define if there is a need to

Category	Enable port mirroring/Traffic Copy
Question	IP Phones
Answer	No
Topic	Endpoint requirements For the different endpoint groups below, please define if there is a need to
Category	Enable port mirroring/Traffic Copy
Question	IoT Devices
Answer	No
Topic	Endpoint requirements For the different endpoint groups below, please define if there is a need to
Category	Enable port mirroring/Traffic Copy
Question	Employee Laptops
Answer	No
Topic	Endpoint Requirements For the different endpoint groups below, please define if there is a need to
Category	Setup gateway outside fabric on firewall
Question	Employee laptops
Answer	Yes
Topic	Endpoint Requirements For the different endpoint groups below, please define if there is a need to
Category	Setup gateway outside fabric on firewall
Question	Employee BYOD
Answer	Yes
Topic	Endpoint Requirements For the different endpoint groups below, please define if there is a need to
Category	Setup gateway outside fabric on firewall
Question	Guest laptops

Answer	Yes
Topic	Endpoint Requirements For the different endpoint groups below, please define if there is a need to
Category	Setup gateway outside fabric on firewall
Question	Guests BYOD
Answer	Yes
Topic	Fabric Exit Points Do you have a single exit point or multiple exit points for the site traffic to exit fabric network (e.g. Internet, DC, other sites).
Category	Number of links
Question	Exit links
Answer	Multiple
Topic	Fabric Exit Points Do you have a single exit point or multiple exit points for the site traffic to exit fabric network (e.g. Internet, DC, other sites).
Category	Number of exits
Question	Exit links
Answer	9
Topic	Fabric Exit Points Do you have a single exit point or multiple exit points for the site traffic to exit fabric network (e.g. Internet, DC, other sites).
Category	High Availability on exit link
Question	Exit links
Answer	Yes
Question	What is the total number of IP pools needed for traffic separation [Question: IP Pool Requirements (e.g. IP pool for different user groups (employee, HR), guest access, IoT)]
Answer	100
Question	What is the total number of IP pools needed for broadcast [Question: IP Pool Requirements (e.g. IP pool for different user groups (employee, HR), guest access, IoT)]

Answer	10
Question	Please specify total number of Security Group Tags (SGTs) needed to segment groups [Question: Security Group Tagging]
Answer	100
Question	Please specify the number of static IP address to SGT bindings [Question: Security Group Tagging]
Answer	10
Topic	Network Security and encryption
Question	Does the traffic need to be encrypted at the network infrastructure level
Answer	No
Topic	Network Security and encryption
Question	Is there a requirement to monitor network traffic in real time for cloud based threat detection
Answer	No
Topic	Network Security and encryption
Question	Does the network need QoS enabled on it through application policies
Answer	No
Topic	Network Security and encryption
Question	Are there mDNS applications in the network
Answer	No
Topic	Network traffic and device communication
Question	Does the guest network need to be physically isolated from the enterprise network (wireless)
Answer	Yes

Topic	Network traffic and device communication
Question	Does the traffic on the switches require east west policy enforcement network
Answer	Yes
Topic	Question
Category	Category
Question	Does the traffic need to support IPv6 (Note
Answer	Yes
Topic	Network traffic and device communication
Question	Does the network need to support dual stack
Answer	Yes
Topic	Network traffic and device communication
Question	Is there a need to support secure mobile access support - user mobility
Answer	Yes
Topic	Network traffic and device communication
Question	Is there communication between hosts in different VNs
Answer	Yes
